

- **NDA Supply Chain Event, Manchester**

Dear partners, Galilé Group Energy Department will be attending the **7<sup>th</sup> NDA Estate Supply Chain Event**, the leading event in Europe for nuclear decommissioning, the 2<sup>nd</sup> of November 2017 – Manchester.

CLM and PEINTA would be delighted to welcome you to **our stand B5** to show you our expertise.

- **First British reference for CLM !**

The 2<sup>nd</sup> of November 2010, Nicolas Sarkozy and David Cameron have announced a nuclear collaboration between France and the UK. The two nations intend to undertake a joint programme in order to cooperate on nuclear weapon technology. The agreement includes a project of cooperation in a new radiographic and hydrodynamic research facility in the CEA and in a Technology Development Center at **AWE Aldermaston**. Thanks to more than **30 years' experience in the glove boxes manufacture**, CLM has been awarded the preferred bidder status for the design and manufacture of a custom-made Glove Box. This coming order is the first British reference for CLM and symbolises the beginning of **successful introduction** in the UK nuclear sector.

- **Energy Division positioned in the Nuclear New Build supply chain**

CLM + PEINTA are involved in different tenders for Hinkley Point C project.

> **CLM**, the specialist of bespoke mechanical equipment focuses its expertise on the containment and on the development of specific tools. CLM is providing bespoke solutions for major actors in the nuclear market like EDF, CEA, AREVA, ROLLS ROYCE, NUVIA.

> **PEINTA**, as an electromechanical integrator provides comprehensive solutions to its customers from design to integration including manufacturing, assembly and painting. PEINTA is a key supplier for prime international companies like SCHNEIDER, GE ALSTOM, CEGELEC, MIRION, SPIE.
